I was out on the web looking for americana - swampy roots music - and i found this wonderful website - then i watched your video podcasts - my husband could not pry me off the computer - kudos to all your hard work Swamp Folk. Nice little record company you have here.

Most definitely looking forward to your future offerings, and reviewing those I have already had a most distinct pleasure of enjoying thus far.

kudos to you very hard work, which is rather evident.

Sincerely,

Your husband
