Hi all.  
Carolyna Here.  
This is a forum where you can give a big Shout Out to your favourite artists and musicians, writers, directors, gear-heads... whomever you feel like applauding. I am particularly fond of the Producing artists... you know... the ones that ACTUALLY create a body of work for us all to enjoy. LIVE performances THRILL me. I am, after all, a fan.  
Enjoy your time here.  
Carolyna

It was great to catch Ryan mid-tour when the band had been hammering it out for a number of shows together. His performance was tight, and solid players joined Ryan to bring to life the party that was "packed to the rafters".
